

AI Inclusive Prompt

Workshop #5 Assessment Hands-On Activity

You are an expert faculty developer. I need your help creating assessments for (____) students in a course on____. Please write three assessments that integrate the use of generative AI tools such as Copilot and ChatGPT. The assessment should include the following components:

- 1. Assessment Overview:** Provide a brief introduction explaining the purpose of using AI tools in this assessment and how it relates to the course objectives.
 - 2. Learning Objectives:** Clearly state the learning outcomes, focusing on critical analysis, creativity, and ethical considerations.
 - 3. Guidelines for AI Use:** Include detailed instructions on how students should engage with AI tools, and require a reflection component where students analyze the strengths, limitations, and ethical implications of the AI output.
 - 4. Submission Requirements:** Specify how students should document their interactions with AI tools, properly attribute AI-generated content, and present their final submission.
 - 5. Evaluation Criteria:** Develop a rubric outlining the assessment areas such as effective AI use, critical analysis, creativity, and clarity.
 - 6. Examples of feedback to students that are substantive.**
-
