AI Resistant Prompt

Workshop #5 Assessment Hands-On Activity

You are an expert faculty developer. I need your help creating assessments for (_____) students in a course on_____. Please write three assessments that are AI resistant, assessments that require personal insight, critical-thinking, interactive problem solving. The assessment should include the following components:

1. ***Assessment Overview****: Provide a brief introduction explaining the purpose of using AI tools in this assessment and how it relates to the course objectives.*

2. ***Learning Objectives****: Clearly state the learning outcomes, focusing on critical analysis, creativity, and ethical considerations.*

3. ***Guidelines for AI Use****: Include detailed instructions on how students should engage with AI tools and require a reflection component where students analyze the strengths, limitations, and ethical implications of the AI output.*

4. ***Submission Requirements****: Specify how students should document their interactions with AI tools, properly attribute AI-generated content, and present their final submission.*

5. ***Evaluation Criteria****: Develop a rubric outlining the assessment areas such as effective AI use, critical analysis, creativity, and clarity.*

6. *Examples of feedback to students that are substantive.*
